Joelle,

the Division review the Rapunzel Mine - Operator is Earth's Partners (David Penny). The Division has not received permit fees since 2012.

Does the Operator had a current Notice with the BLM for the site? S/023/0083

If the Operator does not have a current Notice with the BLM then the Division would ask that the Permittee reclaim the site.

Terry/Stam, feel free to add or correct ...

According to our records, One Notice, UTU-70615, expired in 2005. However, additional work was completed in various years until 2012. In 2012, the notice was changed to UTU-86061. This Notice is pending due to a conflict identified in 2008 (common variety). In 2012, an inspection identified 1 acre of disturbance and in 2014, the plan of operation was determined incomplete and not accepted.
